## Leaders lament loss of funding

BOARDMAN, HOWLAND OFFICIALS: PHASING OUT TAX WILL HURT

By ED RUNYAN

WARREN

Now that the Ohio Senate has approved its version of the next two-year state budget, nine days remain for legislators to iron out the remaining details before final approval by June 30.

Among the biggest headlines have been cuts in the income-tax rate and taxes to small businesses.

But of more concern to some local government officials are measures that cut funding to townships and other government bodies through a tax that the state started phasing out 10 years ago and plans to resume phasing out during the next two fiscal years, starting next month.

A month ago, Larry Moliterno, a Boardman Township trustee, traveled to Columbus to address a committee of the Ohio Senate about the \$576,000 the township currently receives through a program called TPP. Howland Police Chief Paul Monroe also testified.

The full name is tangible personal property tax, a tax that companies used to pay in Ohio to the school districts and local governments in which they were located, but the state eliminated it in 2005 to promote business growth.

Through 2010, the state said it would reimburse the schools and local governments for their lost tax revenue. The Legislature adjusted the process of reimbursing the schools and local governments, however, and continued to reimburse at various

It's been said you become the best by learning from the best.

In that case, the future looks bright for the next-generation Chevrolet Cruze built here in the Mahoning Valley.

"I have had a chance to see it, and it is amazing," said Glenn Johnson, president of the United Auto Workers Local 1112. "The buying public will be very pleased with the next-generation Chevy Cruze."

The world will see the next-generation Cruze on Wednesday at a global unveiling in Detroit. *The Vindicator* will report live from the Motor City.

Its predecessor, GM's best-selling car, hit success after success to make its presence known in the auto world and the compact-car segment. The plan for its successor is to build off the momen-
